HE SUGGESTS IMPEACHMENT

That is the Plan Proposed By the President to be Used in Getting Rid of Judges Who Fail in Their Work.

MANY JURISTS ARE REMISS IN DUTIES

Mr. Taft Spends a Rather Busy Day in St. Louis and Closes Program With Speech on the Tariff Board.

ST. LOUIS, Sept. 23.—President Taft will spend the entire day Sunday, at Baldwin, Kansas, with the exception of half an hour at the state university, at Lawrence. His train departed tonight at 11:30 for Kansas. The Post Dispatch in commenting on the visit of the president tomorrow will say: "Crowds which greeted the president in this city and county were not large, but the demonstrations were friendly. With but few exceptions the 12,000 persons who heard him remained throughout the entire speech."

The Globe Democrat will say: "President Taft's reception here was cordial rather than noisy and demonstrative, which showed the confidence some citizens of St. Louis have in their chief executive."

ST. LOUIS, Sept. 23.—During a moderately busy day, President Taft made six speeches, took a forty mile automobile ride, opened the local football season by tossing the pigskin onto the gridiron of the St. Louis University, held the corner stone of the new Y. M. C. A. building, sat through nine innings of an exciting baseball game between the St. Louis and Philadelphia National league teams, visited the Masonic club to be made a life member of the organization, and after addressing a vast throng at the Coliseum tonight, had nothing to do but travel all night in order to be in the insurgent state of Kansas tomorrow.

On the eve of entering the reputed hostile territory, Taft put forward a suggestion of wider power of impeachment as a substitute for the more radical proposal of the judiciary recall. The president declared the laws delay is unquestionably one of the greatest causes of unrest in this country, and said undoubtedly the recall idea had grown out of the fact that courts in many instances are not performing the functions they should. Judges should be made more responsible, he said, and the means of impeachment more simple. There should be judicial procedure and a proper hearing, rather than public clamor. He declared the delay in administering justice in this country should bring a blush of shame to all Americans and that the courts of this country made a very poor showing in comparison with those of England, where judges keep up with their dockets and criminals find swift punishment awaiting them. He spoke with a great deal of earnestness on the subject of reform in judicial procedure. He said that is something with which he is most familiar as lawyer and judge and felt free to discuss the matter from the frankest possible standpoint. His speech on this subject was entirely impromptu and followed the conclusion at the city club. The last speech of the day was on the creation, work and purpose of the tariff board. He said he believed and still believes that reciprocity would inure to the benefit of both countries. Twice he was introduced as the "greatest president of the country" but modestly protested on each occasion.

Referring to the recall, he said: "If a judge will not be frightened by anybody and will carry on the court as his court then you have an administration of justice as in England. If you examine the statistics you will find an American judge that we have not shown ourselves more adaptable to the issue which has arisen here with respect to whether crime shall be punished and whether we have not made the machinery that accomplishes that purpose. The tendency in legislation ought to be toward giving judges more power rather than making judges more responsible. There is no difficulty about making judges responsible. I know it is proposed to make a short cut and cut his head off without any reason just because the people wish it, under the theory of the judicial recall. I agree that there is a foundation on the basis I have stated, namely, courts have not fulfilled the function they ought to fulfill, but I do not agree that therefore they ought to be killed courts, and that is what you are doing if you make the tenure in office dependent upon election. Gentlemen, that won't do. Make your judges responsible. Impair them. Impairment of judges would be a very healthy thing these times. I have known instances in congress where impeachment should have been carried through, but no difficulty about the difficulty between the member and the judge compromised and the thing allowed to pass. It is not necessary."

PROMINENT OFFICIAL AND SEVEN OTHERS CAUGHT IN DRAGNET OF NEW YORK POLICE

Daniel H. Morgan, Formerly Treasurer of the United States, and Well Known in Business and Social Affairs, is Alleged By Officers to Have Been Engaged in a Swindling Endless Chain Scheme.

NEW YORK, Sept. 23.—In a raid on the stock investment offices of Jared Flagg in West Fourth street today, Flagg and seven other men were arrested on a charge of fraudulently using the mails in endless chain schemes to defraud investors. Among the prisoners are former United States Treasurer Daniel N. Morgan, Bridgeport, Conn.; James K. Schock, said to have been a minister of the Dutch Reformed church; F. Tenneyson Neely, formerly a publisher on Fifth avenue, Joshua Brown and Harold Jackson, brokers; Alvin M. Higgins, lawyer and Edward

L. Schiller. The prisoners were arraigned and pleaded not guilty. Bail was fixed for Flagg at \$25,000 and various amounts for the others. All will be given a hearing Wednesday. Post-office inspector Kincaid, who made the complaint, said thousands of investors in the Flagg enterprise have put in about a million and a half in the schemes. According to the authorities the scheme has been in operation a year and a half. Late tonight no bail had been secured by any of the prisoners and all are locked up in the Tombs.

TELLS JUST HOW IT WAS OBADIAH IS NEW SOLON

Attorney General Wickersham Gives Out an Interview in Which He Corrects Statement in Morning Paper.

BRETTON WOODS, N. H., Sept. 23.—Attorney General Wickersham today replied to a statement reported to have been made by him regarding the status of the United States Steel corporation and other allied trusts and the attitude of the government toward them, published in a New York morning paper this morning.

"That purported interview," said Wickersham, "is a summary of two conversations which were not intended for publication. The report contains some inaccuracies. For instance, I did not state that the United States Steel corporation is a combination in violation of law, nor did I state that men under indictment in the beef cases in Chicago would go to prison if I had my way. In the main, however, the interview represents the views expressed by me in the conversations referred to. The president has stated the supreme court decided what the law is and now business has got to square itself with the law. It is not the intention of the department of justice to bring indiscriminate prosecutions nor is it the intention to bring criminal proceedings except where the evidence indicates a willful and deliberate violation of the law, and a suppression of competitive conditions by oppressive, unfair and illegal methods. It is hoped the combinations which are an illegal restraint upon interstate commerce will recognize and establish competitive conditions without awaiting prosecution. The government would very much prefer such voluntary action to the necessity of legal prosecution."

FIRST FOOTBALL NEWS.
RENO, Nev., Sept. 23.—University of Nevada 14, Sacramento Athletic club 3.

DARROW WILL ASK FOR CONTINUANCE

Attorney for McNamara Says He Hasn't Yet Had Time to Prepare His Case.

LOS ANGELES, Cal., Sept. 23.—Clarence Darrow has announced he would probably move for a continuance of two weeks in beginning the McNamara trial set for October 11. He may make a motion Monday when the hearing of Attorney Harrington is resumed. Darrow said the continuance is necessary because the prosecution is harassed by the defense by contempt proceedings against Mrs. McManigal and George Behman, McManigal's uncle. He says also Attorney Harrington has taken time which otherwise would be given to preparation of the McNamara case. Assistant District Attorney Ford said the prosecution would vigorously oppose a continuance.

Another angle of the case developed when the widowed mother of Harvey Elder, assistant editor of the Times, brought suit against that newspaper for \$50,000 damages. Harvey Elder jumped from a window of the Times building at the time of the explosion. He was injured by striking the pavement and died a few hours later. In the plaintiff's action it is alleged gas caused the explosion.

LOOMIS IS DEAD.
HARTFORD, Conn., Sept. 23.—Charles Battell Loomis, the famous humorist, author and lecturer, died tonight at the Hartford hospital from cancer of the stomach.

THIS CITY IS HEADQUARTERS

Delegate Cameron Opened Offices in Phoenix for the Transaction of Any And All Official Business.

TAKES THIS PLAN TO SERVE PEOPLE

Cameron is the Only Delegate Who Has Consistently Devoted His Time During Recesses to Public Business.

Following the custom which he inaugurated the first year of his service as a delegate to Congress, Hon. Ralph Cameron will, during the present congressional recess, maintain headquarters in the territory, where any one having business with any of the departments of the general government can have that business transacted. There will be this change, however, that whereas the offices heretofore have been maintained at the home of Mr. Cameron in Flagstaff, they will this year be located in Phoenix.

There are two reasons for this change. One is Mr. Cameron's own convenience, and the other is the question of efficiency and ease of service. Mr. Cameron finds it more conducive to the transaction of the people's business to have his headquarters here than elsewhere. The choice of Phoenix as the place for opening the offices rested upon a business proposition. This is not the center of the territory's population; and consequently there are more people here who, from time to time, have business with the government departments, than elsewhere. For this reason it will be more convenient to Mr. Cameron in a way, and certainly will be more convenient to the people he serves that his offices be located in a place that is as easily accessible as possible. As already said this is one of the main considerations why Phoenix was selected as the headquarters for this congressional recess.

It may be said here that Mr. Cameron is probably the only man who ever represented Arizona in congress who has made it a practice of maintaining headquarters in the territory while congress was not in session. Certainly he is the only man who, during late years, has pursued that policy. The headquarters will be in charge of B. W. Zachary, Mr. Cameron's private secretary, and anyone having official business that demands attention will have it transacted in precisely the same manner as though he had made a special trip to Washington for the purpose.

The offices will be located on the second floor of the postoffice building and will be open tomorrow morning.

IS FATAL TO THREE

Bad Fire in Louisville Wholesale District Causes Loss of Life and Many Injuries.

LOUISVILLE, Sept. 23.—An avalanche of bricks from the upper walls of a burning six-story building in the wholesale district crashed through three floors of an adjoining building tonight, killing three firemen and injuring several others. The dead are: Lieut. Virgil Ferguson, fireman Richard Hardman, fireman Richard Platt. Several clerks were on the street floor of the Louisville Paper company, adjoining when the walls collapsed and fell through the floors upon them. The building of David Baird Sons, milliners, is also destroyed. The loss is \$300,000.

ME UNT GOTT.

(Mr. apologies to Henry Asbury)
Who was it invented dot corporation steal?
Vy me, and Gott and Brady O'Neill.
Who was it dot vill make dis spiel?

Nix me, nix Gott, yust Mr. O'Neill.
Who was it boosting Mr. O'Neill?
Nix me, nix Gott, yust Brady O'Neill.
—Douglas Dispatch.

FRENCH GOVERNMENT HAS DISPATCHED A NOTE TO EMPEROR WILLIAM, OF GERMANY

This is the Second Communication on the Trouble in Morocco That Has Been Sent to Berlin Within a Short Time and French Officials Are Optimistic That it Will Put an End to the Present Trouble.

PARIS, Sept. 23.—The latest reply from the French government to the German note on the Moroccan affair, was approved by President Fallieres today and sent to Berlin tonight by special messenger. A semi-official communication was issued this afternoon and said the reply showed some slight divergence from the text of the German note, but added: "Changes are inspired by general views expressed at a conversation between Herr Von Kiderlin-Waechter and M. Cambon." The communication continues: "France insists the relations between the Moroccan foreign board and the powers be carried on through an intermediary French minister at Morocco. In the matter of consular courts for foreign protection, France, in order to remove the abuses complained of, desires all the powers to agree on a revision by the Madrid convention until French jurisdiction has been completely re-established in Morocco. It is hoped these differences will be easily smoothed over."

THEY'LL TALK SAYS PAPER ON FORESTRY IS TOO LOW

Colorado People Seem to Think That Service Has Done More Harm Than Good in Looking After Part of Domain.

DENVER, Col., Sept. 23.—Many reasons will be advanced at the Public Lands convention, which opens here September 25 and lasts until October 2, why a policy should be adopted in the administration of the public domain that will cause these lands eventually to pass to individuals so that the states will realize a direct benefit through the medium of taxes. In other words there will be a strong movement started to the end that the federal government may not retain title to any public lands or natural resources not actually needed for governmental purposes. That the convention will be largely attended by delegations from all of the seventeen western states included in the call seems certain, as the list of appointments for the last week has been large. The convention is apparently going to be a battle ground between the friends of federal conservation and the advocates of the recognition of states' rights in the administration of the public domain.

In a set of resolutions drafted here which will be presented at the convention the following paragraph appears: "We recognize the good that the forest service has accomplished, yet at the same time its cost has been far greater than its benefit, and it has materially hindered the settlement and development of the country, chiefly because of the hard and fast rules made at Washington by chiefs unfamiliar with actual conditions, and administered by subordinates many of whom are equally unfamiliar with such conditions."

The subject of forestry will be discussed by some of the ablest men in the country. Governor James H. Hawley of Idaho will read the paper that will open this discussion.

LIMITED IS WRECKED.

PITTSBURGH, Sept. 23.—Train 28, the Pennsylvania eighteen hour flyer leaving here for the East at 12:50 was wrecked at Larimer, twenty miles east of this city at 1:15 this morning. It is reported the flyer crashed into a freight train, killing the engineer and fireman of the passenger train and injuring a freight brakeman.

NEW YORK, Sept. 23.—Upton Sinclair, the novelist, was in an automobile tonight which ran down and probably fatally injured an unknown peddler while Sinclair was on his way home. Witnesses say the accident was unavoidable, as the man walked directly in front of the car. Sinclair was not detained.

IT'S ALL ON ACCOUNT OF SEN. LA FOLLETTE

Insurgents Will Gather at Chicago to Boom Candidacy of the Statesman From Wisconsin.

WASHINGTON, Sept. 23.—The first conference of the "progressive" republicans, to "consider plans for gaining control of the republican national convention next year" will be held in Chicago, October sixteenth, according to an announcement made here by Walter L. Hower, chairman of the progressive republican convention committee. Invitations have been extended to "consider the present situation, and plan for the future" at this conference the presidential boom of Senator LaFollette is expected to be launched.

COLOSSUS IS NOT PLEASED

The Intellectual Giant From Oregon Seems To Be Quite Peeved at the Utterances of President Taft.

SAYS EXECUTIVE IS DISINGENUOUS

Also Mr. Bourne Intimates That Taft Doesn't Tell the Truth and Says a Few Other More or Less Polite Things.

ATLANTIC CITY, Sept. 23.—United States Senator Jonathan Bourne, of Oregon gave out a statement here tonight which takes issue with the statement given out by President Taft at Peoria yesterday. The senator said: "To use one of his own favorite explanations, Taft was disingenuous in his speech at Peoria yesterday, when he attempted to state the opinion of the people and also to define his attitude toward the Arizona constitution. He says he has confidence in the second sober thought of the people, yet he vetoed a statehood resolution which proposed to submit the people of Arizona a second time the question of the constitutional provision for the recall of the judiciary, as well as other officials."

Here was a plain proposal to submit to the sober second thought of the people, but the president was not willing. He insisted the recall of judges be eliminated regardless of the most mature consideration. I regret to believe his statement that he put his heart into the veto of the recall provision of the Arizona constitution, for the veto message contains two direct misrepresentations of the provisions of the Arizona recall, and another is false by necessary implication. I had entertained the charitable view that his errors were of the mind and not of the heart. The president again was disingenuous when he said many measures advocated by the progressives of the state are not national questions. I insist the initiative, the referendum, the direct primary, the corrupt practices act and the recall are more than state questions."

Senator Bourne after saying Taft does not trust the people said: "Taft's declaration that he is keeping the middle of the road on progressive issues is also disingenuous. There can be no middle course on the question of the adoption of fundamentals of popular government. He who is not for popular government is against it."

McGRATH MAKES A NEW HAMMER RECORD

MONTREAL, Sept. 23.—The world's record, made by Matt McGrath in throwing a 56-pound hammer, featured the annual championships of the A. A. U. of Canada, this afternoon. The former record was held by Flammagan. McGrath today threw the hammer 46 feet, 6 3/8 inches. The old record was 38 1/2. McGrath broke the Canadian light hammer throw, making 152 feet, 4 inches and beating Flammagan's Canadian record by more than three feet. Melvin W. Shepard of New York won the half-mile run in 1:52 4-5, and the 440-yard run in 49 2-5.

SAME OLD STORY.

HORNELL, N. Y., Sept. 23.—Forced to descend because of the failure of the spark plug to work, C. P. Rodgers, the coast-to-coast aviator, landed three miles from here today. When the machine hit the rough earth, it tilted to one side, shattered the left plane and snapped one of the supports. Rodgers was thrown from the seat, but unhurt. The damage is not serious and will not delay the start tomorrow. Rodgers flew sixty miles today in an hour and seventeen minutes.

KATY SHOPMEN WANT A BOOST IN WAGES.

ST. LOUIS, Sept. 23.—A strike by carmen and shopmen of the Missouri, Kansas and Texas began today along the entire system. The men ask higher wages. The company announces it cannot legally comply with the demand. The road is a different system from that of the M. K. T. of Texas. The legal department of the road has announced it will not be allowed to enter into any contract which will not effect both systems, as the company is an entirety formed of the two systems.
